

VPAT™ - Voluntary Product Accessibility Template® (Version 1.3)

Date: May 2, 2014

Name of Product: MyiLibrary (Patron Site – <http://lib.myilibrary.com>)

Contact for more Information (name/phone/email): Help Desk @ support@myilibrary.com

Section 1194.22 Web-based Internet information and applications – Detail	Status	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supported, w/ exceptions	Full site support not yet available
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	N/A	
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supported	Colors are not used to convey information.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supported, w/ exceptions	Pages are not optimized, but are readable.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Supported	
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	N/A	
(g) Row and column headers shall be identified for data tables.	N/A	
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	N/A	
(i) Frames shall be titled with text that facilitates frame identification and navigation.	Supported	Frames not used
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supported	
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Supported, w/ exceptions	100% support in online, e-book viewer; other pages not yet supported
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Not Supported	
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Supported	
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supported	
(o) A method shall be provided that permits users to skip repetitive navigation links.	Supported	
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Supported, w/ exceptions	After an extended period of inactivity, user timeout occurs without advance notice
